Subject: Docket Submission 98D-0969

No. of Pages INCLUDING Cover Sheet: -2-

Nomination of NCCLS AST experts for participation at the Dec. 9-10, 1999 Workshop pursuant to my oral comments at the Oct. 4, 1999 meeting in Rockville, MD.

These individuals are listed in priority preference and will be able to describe the process used to establish breakpoints for predicting human clinical efficacy from in vitro derived MIC/zone inhibition tests for various antibiotics. An understanding of this information is critical to the Framework threshold establishment discussion.

If you do NOT receive all pages, please call the HELP line immediately at (317) 277-4477.
Thank you.
